MEMORANDUM

To: Chair and Members of the Planning Board

From: Matt McLachlan, AICP, Calvin, Giordano & Associates

Meeting Date: January 20, 2015

Subject: Proposed Ordinance No. 2015-02 Relating to Outdoor Dining Areas;
Definitions and Use Permissions for Eating and Drinking
Establishments

On September 16, 2014, the Board reviewed sample land development regulations from other cities pertaining to outdoor dining for discussion purposes. The background information was intended to assist the Board in determining whether outdoor dining is available in all of the appropriate local plan/zoning categories; the process for considering such use is clear and adequate; and the standards by which to review and administer such use are appropriate.

Currently, the City's Land Development Code provides for the City Manager to authorize outdoor seating at restaurants established as of July 1, 2003, that meet the following requirements: (1) are 500 sq. ft. or less in area and do not encroach into a required setback; (2) do not increase restaurant seating; (3) do not diminish existing on-site parking; (4) provide protective barriers between the outdoor seating area and any adjacent vehicular use area; (5) restricts lighting to the subject property; and (6) does not locate outdoor seating adjacent to residentially zoned property. All other restaurants that wish to provide outdoor seating must be located in a zone that authorizes outdoor seating by right or with conditional use approval as specified on the attached chart. The Code does not provide performance standards on how outdoor seating is to be located and operated in these zones thereby leaving it up to the City to negotiate specific requirements on a case by case basis as part of the conditional use or right-of-way use permitting process when outdoor (café) seating encroaches onto a public sidewalk.

On December 16, 2014, the Board considered a draft ordinance to allow any full or limited service restaurant to establish an outdoor dining area (regardless of establishment date) and the manner and conditions under which the outdoor dining area is to be provided and maintained. Permit applications for outdoor dining areas would be subject to administrative review and approval by the Technical Review Committee.

Additionally, Staff proposed to reduce the number of use classifications relating to eating and drinking establishments from twelve to six by concentrating on the principal nature of the use rather than specific aspects or characteristics of each use type.

In response to the Board's review and comments, the following specific amendments to the draft were made to the draft ordinance:

SECTION 2

- Sec. 6.24(a)(1)(a) – removed prohibition on outdoor dining areas adjoining a property that is principally zoned or used for residential purposes and instead require a suitable buffer to screen it from view. Staff recommends that a six foot tall privacy fence or masonry wall be required along the lot line of the yard containing an outdoor dining area when it adjoins a property occupied by a single-family dwelling.
- Sec. 6.24(a)(1)(b) – removed requirement that the hours of operation of an outdoor dining area shall coincide with those of the associated business.
- Sec. 6.24(a)(1)(c) – removed requirement that outdoor dining areas shall not exceed 30 percent of the gross floor area of the associated restaurant.
- Sec. 6.24(a)(1)(f) – removed requirement that all tables, chairs and other equipment used for outdoor dining shall be securely stored inside Upon the issuance of a tropical storm or hurricane warning.
- Sec. 6.24(a)(1)(g) – removed requirement that alcoholic beverages shall only be served to seated patrons.
- Sec. 6.24(a)(1)(h) – removed prohibition on amplified music, speakers, microphones, televisions and other audio or video devices from being watched or heard from an outdoor dining area.

SECTION 11

- Sec. 23.5(e) – spelled out CRD-EA as CRD – Eighth Avenue

Staff has also updated the attached chart to show bars and lounges as being a permitted use in the TC-1, Town Center Core District as proposed in the ordinance.

Staff recommends that the Planning Board hold a public hearing and make a recommendation to the City Commission on whether to approve, deny, or approve with changes Ordinance 2015-02 as presented.

MEMORANDUM

To: Chair and Members of the Planning Board

From: Matt McLachlan, AICP, Calvin, Giordano & Associates

Meeting Date: January 20, 2015

Subject: Proposed Ordinance No. 2015-03

On November 17, 2014, the Planning Board considered a draft ordinance providing for the definition, categorization, and use permissions of off-premise and commercial parking lots and structures within the four character districts that comprise the Gulf Boulevard Redevelopment District (GBRD). The ordinance further amends the City's general parking requirements to allow turf block to be used as an alternative parking space surface for both required and non-required parking spaces; establishes that off-street parking spaces are to be reserved for the exclusive use of residents, customers, patrons, or employees of the principal use of the property they are designed and intended to serve except as may be allowed in connection with a special event; establishes revised locational criteria for required off-street parking; and limits non-required, supplemental surface parking within the GBRD to a time period not to exceed five years from the date the conditional use permit is originally approved by the City Commission. Moreover, the proposed amendments expand the range and use of pervious and semi-pervious parking materials and associated criteria.

Upon consideration, the Planning Board recommended the following changes be made to the draft ordinance:

- Increase the radius requirement of required off-premise parking from 300 ft. to 500 ft. (refer to Sec. 23.4(l)(2)(a) in proposed Ordinance);
- Modify the pedestrian connection requirement associated with required off-premise parking to prohibit the crossing of a *collector* or *arterial* street instead of any street (refer to Sec. 23.4(l)(2)(b) in proposed Ordinance);
- Add commercial parking lots to the list of conditional uses in the Bayou Residential character district with a maximum time limit of two years from the date any conditional use permit is approved by the City Commission (refer to Sec. 23.4(n) and Sec. 42.4 in proposed Ordinance); and

- Spell out R/OS district (refer to Sec. 23.7(a)((3)(a) in proposed Ordinance).

On December 16, 2014, the Board considered the following additional amendments to Sections 3 and 6 of the ordinance:

- Amend Sec. 23.5(f) to allow commercial properties located in the Downtown Redevelopment District to change in use without providing additional required parking unless there is an increase in the floor area of an existing building or construction of additional buildings upon a determination by the City that there is inadequate space to increase on-site parking in accordance with City requirements. This exemption currently applies only to commercially zoned properties abutting Corey Avenue, east of Gulf Boulevard.
- Amend Division 23, Off-Street Parking and Loading, to establish a mechanism for a fee in-lieu of required on-site parking. This will facilitate the City's compact, walkable development objectives by allowing a property owner to "buy down" required on-site parking space(s) associated with an expansion project by paying the fair market value of the land plus construction cost of the parking space(s) to the City for the future provision and maintenance of municipal parking facilities in the Downtown Redevelopment District.

Upon deliberation, the Board directed Staff to amend Sections 9 and 10 of the draft ordinance to delete off-premise parking structures as being an allowable conditional use in the (BR) Bayou Residential District and the B/HC Boutique Hotel/Condo District respectively. In addition, Sec. 46.4(1) under Section 10 of the Ordinance providing for transient accommodation units subject to the density pool as an allowable conditional use in the Boutique Hotel/Condo District has been rephrased as "transient accommodation units *allocated from* the density pool" for clarification purposes.

For ease of reference, the use permissions established under the proposed ordinance are summarized on the following chart:
