Regular Meeting

A. Minutes for Acceptance

- January 25, 2012 regular meeting

B. Public Hearings:

Case # 2012-0006

Applicant Deborah Ward. Property address 6902 Gulf Winds Drive. Applicant requests a variance from Section 6.13 of the Land Development Code. Maximum allowable size for an accessory storage building is 80 square feet. Applicant requests a 160 square foot storage building.

Case # 2012-0007

Applicant Ronald Cooper. Property address 3610 E. Maritana Drive. (Lot 6 less S. 10' Block 14 Don Cesar Place) Applicant requests a variance to reduce rear yard setback from 20' to 16' and south side yard setback to 10'.

Case # 2012-0008

Applicants Lisa and Gerlad Kertesz. Property located at 107 30th Ave. Applicants request a variance from Section 9.7 of the Land Development Code to reduce the front yard setback from 20 feet to 12 feet and the side yard setback from 11 feet to 4 feet for the construction of a deck.

Case # 2012-0009

Applicants Bonnie and Gerard Pickhardt. Property address 105 27th Avenue. Applicants request variance from section 9.7 of the Land Development code to reduce side yard setback from 9 feet to 6 feet for the construction of an addition.

Case # 2012-0010

Applicant William Tarvin. Property address 315 40th Ave. Applicant requests variance from Section 9.7 of the Land Development Code to allow for a 5 foot encroachment into the required front yard for stairs.

C. Adjourn

APPEAL

If a person decides to appeal any decision made at this meeting, they will need a record of the proceeding and, for such purpose, may need to ensure that a verbatim record of the meeting is made, which record includes the testimony and evidence upon which the appeal is to be based. (F.S. 286.0105) The City does not furnish verbatim transcripts; interested parties should make the necessary arrangements for verbatim transcripts.

AMERICAN DISABILITIES ACT

In Accordance with the American's with Disabilities Act and F.S. 286.26, persons with disabilities needing special accommodations to participate in this meeting should contact City Hall at (727) 367-2735 no later than (4) days prior to the meeting for assistance.

The public is cordially invited to attend. All agenda material is available for review at City Hall.

BOARD OF ADJUSTMENT

MINUTES

January 25, 2012

2:00 p.m.

CALL TO ORDER

PLEDGE OF ALLEGIANCE

ROLL CALL

PRESENT:

Paul Skipper, Chairman
Park Lampson, Member
Stephan M. Phalor, J.D., Member
David Littell, Member

ABSENT:

Doug Lampe, Vice Chairman

ALSO PRESENT:

Catherine Hartley, Senior Planner
Pamala Prell, Deputy City Clerk

1. Acceptance of Minutes

Member Littell made a motion to approve the November 30, 2011 and the December 14, 2011 minutes, as written. The motion was seconded by Member Lampson and approved by a unanimous roll call vote.

2. Public Hearings

- a. Case No. 2012-0001
Applicant: Steven Ranck
Subject property address: 241 S. Isle Drive
Applicant requests variance from Section 6.13 for an accessory structure to encroach into the rear yard setback.

Senior Planner Catherine Hartley explained that the application is for the construction of a gazebo in the rear yard of the property. Ms. Hartley pointed out that the lot is an odd shape and that staff recommends approval of the variance. Ms. Hartley stated that she did not receive any letters of support or opposition regarding the application.

Applicant Steven Ranck stated that he was requesting a variance to build a 12 ft. x 16 ft. gazebo in the back yard.

Chairman Skipper called for audience comments. There were no comments. Chairman Skipper closed audience comments.

The board members did not express any concerns regarding the application.

Member Lampson made a motion to approve the variance as requested. The motion was seconded by Member Phalor and approved by a unanimous roll call vote.

b. Case No. 2012-0004

Applicant: Robert Schaefnocker

Subject property address: 3901 Oleander Way

Applicant requests variance from Section 8.7 – Reduction of secondary front yard setback from 20 feet to 4 feet for the construction of an addition.

Senior Planner Hartley explained that the application is to build a master bedroom and garage addition to the house. Ms. Hartley pointed out that the lot is odd shaped and the house sits diagonal on the lot. Ms. Hartley stated that staff recommends approval of the variance. She advised that she did receive a request for a copy of the application but no comments were submitted.

Chairman Skipper called for audience comments. There were no comments. Chairman Skipper closed audience comments.

The board did not express any concerns regarding the application.

Member Lampson made a motion to approve the variance as requested. The motion was seconded by Member Littell and approved by a unanimous roll call vote.

3. Other Discussion

Senior Planner Hartley advised the board that the City Manager has narrowed down five finalists to interview for the Community Development Director and he would like a member of the board to sit on an interview panel on February 13, 2012.

Member Littell agreed to sit on the interview panel. Ms. Hartley advised that she will notify Mr. Littell of the time and place of the interviews.

Upon inquiry, Ms. Hartley advised the board that she was not among the five finalists that are being considered for the director position.

4. Next Meeting

The next meeting will be held on February 29, 2012 at 2:00 p.m. Ms. Hartley advised that she will send the 2012 schedule of meetings to the board members.

5. Adjournment

There being no further business to come before the Board, the meeting was adjourned at 2:14 p.m.

Attest:

Rebecca C. Haynes, City Clerk

Paul Skipper, Chairman

Minutes approved on: _____

City of St. Pete Beach
Board of Adjustment
Public Hearing
Case # 2012-0006
March 28, 2012

Property Information

Address: 6902 Gulf Winds Drive

Applicant/Owner: Deborah Ward

Agent: Self

Existing Use: Single Family Residential

Zoning: RU-1

Request: Applicant requests a variance from Section 6.13 of the Land Development Code.

Maximum allowable size for an accessory storage building is 80 square feet. Applicant requests a 160 square foot storage building.

Details of Request and Background Information:

The subject property contains a multifamily structure. The use is a non-confirming use within the zoning district (only single family residential is permitted a principal use). The applicant has requested a storage shed 80 square feet larger than what is allowed by the Land Development Code (160 square feet versus the 80 square foot maximum).

Section 6.13 (b) regulates the size and placement of residential storage buildings as follows:

(b) Residential storage buildings. Residential storage buildings may be permitted as an accessory on a residential property. Only one such residential storage building is allowed, and the residential storage building shall be further regulated as follows:

(1) The residential storage building shall be used exclusively for storage of household items, and no mechanical equipment shall be operated within or attached to such building.

(2) The placement of a residential storage building shall require a building permit, meet all applicable building codes, and shall be properly anchored.

(3) All storm water runoff shall be directed and maintained on the property upon which the building is located.

(4) The residential storage building shall be located a minimum of 60 feet from the front property line and 20 feet from the secondary front yard, provided no residential storage building shall be permitted within the required yard for a waterfront yard.

(5) Residential storage buildings shall be subject to the following dimensional and required yard requirements.

a. Maximum size: 80 square feet in area.

b. Maximum height: Eight feet in height as measured from grade to the highest point on the structure.

c. Location: May be located along any side or rear property line, except in secondary front yards and waterfront yards as provided in paragraph (4) above; and must be separated at least six feet from any other accessory structure.

Staff Analysis

Section 3.12 of the land Development Code sets forth the conditions that an applicant must meet in order for a variance to be granted:

- (a) The existence of conditions and circumstances that are peculiar to the subject land, structure or building and do not apply generally to neighboring lands, structures or buildings in the same district which have complied with these regulations without hardship; that the strict application of the provisions of the land development regulations would deprive the applicant of reasonable use of such land, structure or building; and the peculiar conditions and circumstances are not the result of the actions of the applicant; and*
- (b) Neither a nonconforming use of neighboring lands, structures or buildings, legal or illegal, in the same district, nor a permitted use in adjacent districts shall be considered as grounds for issuance of a variance; and*
- (c) The proposed variance will not have the effect of changing any district boundary on the zoning map, nor constitute the granting of a nonconforming use. Under no circumstances shall a variance permit an increase in development density or permit a use not specifically permitted in the district; and*
- (d) The granting of a variance will be in harmony with the general purpose and intent of the land development regulations and will not be injurious to the neighborhood or otherwise detrimental to the public welfare. In granting the variance, the appropriate board of authority may prescribe any conditions and safeguards it deems necessary or desirable as a condition of approval of the variance application; and*
- (e) The appropriate board of authority finds as a reasonable conclusion that hardship would unnecessarily result from a literal enforcement of the provisions of the land development regulations as set forth in the application, and the variance proposed is the minimum variance that will make possible the reasonable use of the land, structure and building.*

Based on these standards, staff makes the following observations:

- a) The applicant has not presented evidence of a hardship. The applicant has more than reasonable use of the land; the lot consists of one additional dwelling unit than is permitted by the Comprehensive Plan and Land Development Code, and the unit is protected in the event of catastrophic loss.
- b) The applicant has not argued that a neighboring non-conforming use is grounds for the request.
- c) The granting of the variance will not change the boundary of the zoning map.
- d) The applicant has argued that the materials of the proposed structure (wood versus metal) will not be detrimental.
- e) The applicant has not offered evidence that the denial of the variance for the proposed structure would be the minimum necessary to make reasonable use of the land.

Summary and Conclusion

The burden of proof of substantial competent evidence that a hardship exists lies on the applicant. Such evidence has not yet been submitted.

Submitted by: Catherine Hartley, AICP, Senior Planner

VARIANCE APPLICATION

Case Number: 2012 0002

PROPERTY:

Legal Description: Lot 1 Block 2 Gulf Winds Subdivision

Parcel ID or address is one has been assigned: 6902 Gulf Winds Drive St Pete Beach 33706

Cell 727 239 1285

DETAILS OF THE REQUEST: Cite code sections for which variance is requested: (Add additional sheets if necessary)

Requesting 10ft x 16ft shed left hand corner
of our back YARD

Attach the following supporting documentation to this application:

- Recent survey of the property
- A site plan, drawn to scale, illustrating the proposed variance.

This application, together with all required supporting documents, shall be submitted by 12:00 noon on the stated filing date for the Board of Adjustment/City Commission. Failure to do so will delay your application to a later date. If any materials are missing or any part of this application is left blank, staff may refuse the application until such time as it is completed by the applicant.

In order for an application for a variance to be approved or approved with conditions, the Board of Adjustment or the City Commission must make a positive finding with regard to each of the provisions below, which are also located in Division 3 of the Land Development Code. The applicant has the burden of proof demonstrating that the application for the variance complies with each of the requirements. Please explain in detail how your case meets these requirements (attach additional sheets if necessary):

1. Conditions and circumstances exist that are peculiar to the subject land, structure or building and do not apply generally to neighboring lands, structures or buildings in the same zoning district which have complied with these regulations without hardship.

N/A

2. The strict application of the provisions of the land development regulations would deprive the applicant of reasonable use of such land, structure or building.

N/A

3. The peculiar conditions and circumstances are not the result of the actions of the applicant.

N/A

4. The proposed variance will not have the effect of changing any district boundary on the zoning map.

N/A

5. The variance shall not permit a non-conforming use or permit a use not specifically permitted in the zoning district.

N/A

6. The variance shall not increase density or intensity over that which is permitted in the Comprehensive Plan.

N/A

7. The granting of a variance will be in harmony with the general purpose and intent of the land development regulations and will not be injurious to the neighborhood or otherwise detrimental to the public welfare.

The larger shed will be wooder instead of metal and will blend in with the surroundings better and will in no way affect the neighborhood.

8. The variance proposed is the minimum variance that will make possible the reasonable use of the land, structure and building.

We need the extra space to accommodate residences of both sides of the duplex.

VARIANCE APPLICATION

Applicants must acknowledge understanding of the following. Initial each of the statements below. If you do not understand any of these, staff will explain them to you.

 CH I understand that a non-conforming use or structure in a particular zoning district does not, in any way, provide justification for the granting of a variance. Furthermore, the existence of a permitted use or structure in adjacent districts does not constitute grounds for a variance.

 CH On all variances, a majority vote is required. Action on this application by the BOA/City Commission may be continued to a later meeting.

 CH I understand that if a variance is approved by the BOA/City Commission, the applicant is required to obtain the appropriate building permits within 1 year from the date of the decision. If no permit is obtained within 1 year, the approval from the Board/City Commission becomes voided.

 CH I understand that any person aggrieved by the final decision has the right to file a petition in the Pinellas County Circuit Court within 30 calendar days after the decision. Permits for construction may be granted prior to the expiration of this 30-day period, but an appeal will be grounds for revocation of the permit.

 CH I understand that I, as the applicant, or my authorized representative must be present at all scheduled public meetings on the application.

After acknowledgement of these conditions, complete the application form on the following pages.

Case No.: 2012-0006
Address: 6902 Gulf Winds Drive
Owner: Deborah Ward
Agent: Owner
Request: Applicant requests a variance from Section 6.13 of the Land Development Code. Maximum allowable size for an accessory storage building is 80 square feet. Applicant requests a 160 square foot storage building.

You are hereby notified that a variance application for the above-referenced request has been filed with the Community Development Department. Records indicate that you own property within 300 feet of this property. The application is on file with the Community Development Department, which is located on the first floor in City Hall, 155 Corey Avenue, St. Pete Beach. Interested persons are urged to examine the application materials prior to the scheduled hearing date. Individuals who wish to object to the request may either appear at the hearing or file their objection in writing with the Community Development prior to the hearing date. If the objection is in writing, it should refer to the assigned case number and specify the grounds for the objection. Written objections will be presented to the Board of Adjustment for consideration. **Community Development Department may be contacted by telephone at 727-363-9266 or by email at c.hartley@stpetebeach.org.** This public hearing is part of a quasi-judicial proceeding and is subject to special rules and procedures relative to evidence and appeals. Discussions with any board member will be disclosed at the public hearing. Appeals of the decision are by petition for writ of certiorari to the Circuit Court. Persons appealing a decision will need a record of the proceedings and may need to ensure that a verbatim record is made, including testimony and evidence upon which the appeal is based. The City does not provide verbatim transcripts.

In accordance with the Americans with Disabilities Act and Florida Statutes 286.26, persons with disabilities needing special accommodation to participate in this proceeding should contact Public Services, no later than seven days prior to the proceeding at (727) 363-9243 for assistance; if hearing impaired, contact the Florida Relay Service Numbers, (800) 955-8771 (TDD).

Property Information

Address: 3610 E. Maritana Drive. (Lot 6 less S. 10' Block 14 Don Cesar Place)

Applicant/Owner: Ronald Cooper

Agent: Self

Existing Use: Vacant

Zoning: RU-1

Request: Applicant requests a variance to reduce rear yard setback from 20' to 16' and south side yard setback to 10'.

Details of Request and Background Information:

The subject property was formerly part of a larger parcel (lots 5 and 6, block 14, Don Cesar Place) which contained a single family residence. The house was demolished in 2002 and the property has since been vacant.

A portion of the larger parcel was recently sold to the applicant. The new lot consists of a platted lot of record less the southern 10' that was kept with lot 5 to the south. Although lot 5 was a platted lot of record and entitled to a single family residence in spite of not meeting the minimum lot width requirement, keeping the additional 10 feet keeps lot 5 a conforming lot.

Lot 6, less the southerly 10 feet, (the parcel subject to this application) is an odd shaped lot (see survey, attached). The front lot line is roughly 156 feet; the north (side) lot line is roughly 20 feet; the south (side) lot line is roughly 97 feet; the rear lot line is roughly 112 feet.

Lot width is defined as "the average distance between the property lines connecting the front and rear zoning lot lines at each side of the zoning lot, except for zoning lots on the turning circle of a cul-de-sac for which the required yard shall be based upon the stated minimum lot width for the district in which the lot is located."

Based on this definition, the required minimum side yard setbacks would be 13 and a half feet.

The applicant has requested a reduction in the required rear yard from 20 feet to 16 feet and a reduction in the southern side yard setback from 13.5 feet to 10 feet to construct a single family home.

Staff Analysis

Section 3.12 of the land Development Code sets forth the conditions that an applicant must meet in order for a variance to be granted:

- (a) The existence of conditions and circumstances that are peculiar to the subject land, structure or building and do not apply generally to neighboring lands, structures or buildings in the same district which have complied with these regulations without hardship; that the strict application of the provisions of the land development regulations would deprive the applicant of reasonable use of such land, structure or building; and the peculiar conditions and circumstances are not the result of the actions of the applicant; and*
- (b) Neither a nonconforming use of neighboring lands, structures or buildings, legal or illegal, in the same district, nor a permitted use in adjacent districts shall be considered as grounds for issuance of a variance; and*
- (c) The proposed variance will not have the effect of changing any district boundary on the zoning map, nor constitute the granting of a nonconforming use. Under no circumstances shall a variance permit an increase in development density or permit a use not specifically permitted in the district; and*
- (d) The granting of a variance will be in harmony with the general purpose and intent of the land development regulations and will not be injurious to the neighborhood or otherwise detrimental to the public welfare. In granting the variance, the appropriate board of authority may prescribe any conditions and safeguards it deems necessary or desirable as a condition of approval of the variance application; and*
- (e) The appropriate board of authority finds as a reasonable conclusion that hardship would unnecessarily result from a literal enforcement of the provisions of the land development regulations as set forth in the application, and the variance proposed is the minimum variance that will make possible the reasonable use of the land, structure and building.*

Based on these standards, staff makes the following observations:

- (a) The odd shape of the lot is not due to the actions of the property owner; the lot was platted in this general shape (less ten feet).
- (b) A single family residence is a permitted use in this zoning district. There is no request for a prohibited use, nor has the applicant argued that a non-conforming use is the reason for the application.
- (c) The proposed variance does not change any zoning district boundary.
- (d) The general purpose and intent of the Land Development Code is to ensure the health and safety of the public. Required yards are established in order to ensure a minimum open space for percolation of water and buffering between neighboring properties. The proposed building footprint is no closer to the southern lot line than other structures in the same general area. Keeping the front yard at 20 feet (versus utilizing front yard averaging) allows for a greater view shed to the waterfront for neighboring properties.
- (e) The applicant would have reasonable use of the land without the granting of the variance, as a house can still be constructed on the property. However, re-positioning the proposed footprint meets the general purpose and intent of the Land Development Code.

Summary and Conclusion

Staff finds that the request meets the general purpose and intent of the Land Development Code and recommends approval of the variance with the condition that the applicant not utilize front yard averaging to reduce the front yard setback and maintain a 20 foot front yard setback.

DETAILS OF THE REQUEST: Cite code sections for which variance is requested: (Add additional sheets if necessary)

Reduce Rear Setback from 20' to 16'

Reduce South Side Setback to 10'

Attach the following supporting documentation to this application:

- Recent survey of the property
- A site plan, drawn to scale, illustrating the proposed variance.

This application, together with all required supporting documents, shall be submitted by 12:00 noon on the stated filing date for the Board of Adjustment/City Commission. Failure to do so will delay your application to a later date. If any materials are missing or any part of this application is left blank, staff may refuse the application until such time as it is completed by the applicant.

In order for an application for a variance to be approved or approved with conditions, the Board of Adjustment or the City Commission must make a positive finding with regard to each of the provisions below, which are also located in Division 3 of the Land Development Code. The applicant has the burden of proof demonstrating that the application for the variance complies with each of the requirements. Please explain in detail how your case meets these requirements (attach additional sheets if necessary):

1. Conditions and circumstances exist that are peculiar to the subject land, structure or building and do not apply generally to neighboring lands, structures or buildings in the same zoning district which have complied with these regulations without hardship.

ODD SHAPED LOT. DID NOT Create
Hardship

2. The strict application of the provisions of the land development regulations would deprive the applicant of reasonable use of such land, structure or building.

REASONABLE BUILDING SPACE NOT
AVAILABLE WITH CURRENT SET BACKS

3. The peculiar conditions and circumstances are not the result of the actions of the applicant.

NO LOT IS PLATTED IN PIE SHAPE.
SEE EXHIBIT B

4. The proposed variance will not have the effect of changing any district boundary on the zoning map.

SOUTH NEIGHBOR (LOT 5) HAS 6' SIDE
SET BACK
REAR (WEST) NEIGHBORS ARE 15' BACK
FROM LOT LINES OR LESS

5. The variance shall not permit a non-conforming use or permit a use not specifically permitted in the zoning district.

NO

6. The variance shall not increase density or intensity over that which is permitted in the Comprehensive Plan.

NO

7. The granting of a variance will be in harmony with the general purpose and intent of the land development regulations and will not be injurious to the neighborhood or otherwise detrimental to the public welfare.

Yes

8. The variance proposed is the minimum variance that will make possible the reasonable use of the land, structure and building.

Yes

VARIANCE APPLICATION

Applicants must acknowledge understanding of the following. Initial each of the statements below. If you do not understand any of these, staff will explain them to you.

MC

I understand that a non-conforming use or structure in a particular zoning district does not, in any way, provide justification for the granting of a variance. Furthermore, the existence of a permitted use or structure in adjacent districts does not constitute grounds for a variance.

MC

On all variances, a majority vote is required. Action on this application by the BOA/City Commission may be continued to a later meeting.

MC

I understand that if a variance is approved by the BOA/City Commission, the applicant is required to obtain the appropriate building permits within 1 year from the date of the decision. If no permit is obtained within 1 year, the approval from the Board/City Commission becomes voided.

MC

I understand that any person aggrieved by the final decision has the right to file a petition in the Pinellas County Circuit Court within 30 calendar days after the decision. Permits for construction may be granted prior to the expiration of this 30-day period, but an appeal will be grounds for revocation of the permit.

MC

I understand that I, as the applicant, or my authorized representative must be present at all scheduled public meetings on the application.

After acknowledgement of these conditions, complete the application form on the following pages.

Signature of Applicant Date

Exhibit A

File No.: FT71-12000725
Commitment No.: 12000725

5. The land referred to in the Commitment is described as follows:

PARCEL "B"

Lot 6, Less the Southerly 10 feet thereof, Block 14, Don Ce-Sar Place, according to the plat thereof, recorded in Plat Book 13 at pages 15 through 20, of the Public Records of Pinellas County, Florida, also less and except lands described in Deed recorded in O.R. Book 10333, Page 182 of said Public Records.

PARCEL "B-1"

Being a part of the 10 foot reserved seawall area lying East of East Maritana Drive right-of-way, being across the right-of-way in front of and Easterly of Lot 6, Block 14, Don Ce-Sar Place, according to the plat thereof recorded in Plat Book 13 at Pages 15 through 20, of the Public Records of Pinellas County, Florida, bordered on the South by a line as the extension of the North boundary of the South 10 feet of said Lot 6 and bordered on the North by a line as the extension of the Southerly boundary of less out portion of said Lot 6 described in Deed recorded in O.R. Book 10333, Page 182 of said Public Records.

NOTICE OF PUBLIC HEARING
Hearing Date: April 18, 2012
2:00 P.M.
City Commission Chambers
155 Corey Avenue
St. Pete Beach, Florida 33706**

Case No.: 2012-0007
Address: 3610 E. Maritana Drive (Lot 6 less S. 10' Block 14 Don Cesar Place)
Owner: Ronald Cooper
Agent: Owner
Request: Applicant requests a variance to reduce rear yard setback from 20' to 16' and south side yard setback to 10'.

You are hereby notified that a variance application for the above-referenced request has been filed with the Community Development Department. Records indicate that you own property within 300 feet of this property. The application is on file with the Community Development Department, which is located on the first floor in City Hall, 155 Corey Avenue, St. Pete Beach. Interested persons are urged to examine the application materials prior to the scheduled hearing date. Individuals who wish to object to the request may either appear at the hearing or file their objection in writing with the Community Development prior to the hearing date. If the objection is in writing, it should refer to the assigned case number and specify the grounds for the objection. Written objections will be presented to the Board of Adjustment for consideration. **Community Development Department may be contacted by telephone at 727-363-9266 or by email at c.hartley@stpetebeach.org.** This public hearing is part of a quasi-judicial proceeding and is subject to special rules and procedures relative to evidence and appeals. Discussions with any board member will be disclosed at the public hearing. Appeals of the decision are by petition for writ of certiorari to the Circuit Court. Persons appealing a decision will need a record of the proceedings and may need to ensure that a verbatim record is made, including testimony and evidence upon which the appeal is based. The City does not provide verbatim transcripts.

In accordance with the Americans with Disabilities Act and Florida Statutes 286.26, persons with disabilities needing special accommodation to participate in this proceeding should contact Public Services, no later than seven days prior to the proceeding at (727) 363-9243 for assistance; if hearing impaired, contact the Florida Relay Service Numbers, (800) 955-8771 (TDD).

Community Development Department
City of St. Pete Beach
155 Corey Avenue
St. Pete Beach, FL 33706
Email: c.hartley@stpetebeach.org

To the Community Development Hearing Official:

I **OBJECT** to the variance requested by Ronald Cooper identified as Case No: 2012-0007, 3610 E. Maritana Drive (Lot 6 less S. 10' Block 14 Don Cesar Place).

In consideration of the above request I sought review by a general contractor:

Jim Hunt
FL CGC 1515669
JimmyPC Inc.
3223 Abernys St.
Spring Hill, FL 34606

The property located behind my home at 3611 Casablanca Ave, St. Pete Florida was demolished as a single family home/lot for the purpose of expansion to two lots and financial gain approximately 8 years ago.

The original law of the land, Swiftmud (Southwest Florida Water Management) and Florida Code states:

No building or excavation may encroach an existing lay as far as water displacement. Please note, any elevation in this area will create water encroachment to my property which exists behind the above requested. This is a tidal flood zone where normal street and walkways are frequently under water, as the sign posted on the entrance to our neighborhood clearly states. I refuse to have any building encroach on my property and increase the current amount of water I already receive during storms and high tides. This area already experiences frequent tidal flooding where I have to park away from my home for basic access and clean up the damage incurred on my property

Ruling also states in regards to:

Variance: No variance will be considered in Pinellas County Florida for financial gain.

Hardship: No hardship will be considered as variance for the purpose of financial gain, Pinellas County FL. All setbacks and elevations will remain.

Set Backs: The set backs in this area are presently at the minimum for this area.

No variance is allowed in this County by law other than hardship under current code. Hardship is not to be considered if the owner or previous owner created the hardship. If this was a hardship for the new owner, it was known before the purchase and was created by land division, demolition of previous dwelling for financial gain. Hardship under these items is not considered for a variance in this County, Thus, there is no legal hardship or reasonable request for hardship or variance of protected code on this or the previous request for the same reasons at this property and will be contested by the owner of the lots adjacent.

Normal variance hearings are to have all parties within 300 feet sign off before the hearing, this has not been completed and I was not even notified until 5 calendar days before this hearing. This hearing appears out of normal order and I am not sure why. I have seen no plans as to the request for a variance thus have no idea what is being built next to or over our property and buried utilities set by the city. Elevation proposals do not appear to have been submitted, especially in a tidal flood zone.

Guarantee of access to City and County utilities that run on PRESENT set backs including sewer in this case are not mentioned in the application. The normal setbacks include utility access for surrounding properties, thus the established. Blockage of normal sunlight to surrounding properties listed as residential.

This is the second time this case has been proposed and the ruling should stand by code. Elevation and Setback should not be encroached at the risk of established property and will be filed on according to code by adjoining owners.

Based on the damage this variance for setback will cause to my property I vehemently **OBJECT** to the request.

Thank you for reading this letter at the hearing.

Janet Davis
Owner of 3609 and 3611 Casablanca Ave.
St. Pete Beach, FL 33706

Subject: Re: BOA agenda Case #2012-0007
Date: Thursday, February 23, 2012 6:45:44 AM

Ms. Hartley,

By rough calculation it appears that the replat of 3610 E. Maritana Dr. resulted in lot 6, less 10 foot to lot 5, being a less than minimum lot size for RU-2 zoning. In accordance with the Land Development Code, Section 24.2:

Sec. 24.2. Replatting to increase density prohibited.

Existing recorded platted lots in the RU-1, RU-2, RLM-1, RLM-2 and RM districts shall not be recombined and/or re-subdivided for the purpose of increasing development density. Zoning lots within these districts consisting of two or more platted lots may be restored to the original number of lots with the approval of the city; **provided such restoration shall not reduce the zoning lot area required to support the existing development on the property and that all of the resulting lots meet the minimum lot area and width required in the district.**

(Ord. No. 03-7, § 3, 5-1-03)

If the resultant reduced area lot 6 is less than the minimum 6000 square feet required for RU-2 zoning, then the replat separating the two lots is not permitted, and even restoring lot 5 to its original platted size would not be permitted under the requirements stated in Section 24.2, as it would not meet the minimum lot width and area. This requirement is, I believe, stated and required by the city Comprehensive Plan. If this is true, this property cannot be redivided as indicated in the variance application.

Ed Ruttencutter

It is not true that the City of St. Pete Beach has too many lawsuits. What is true is that the City of St. Pete Beach has TOO MANY LAWYERS. Based upon the actions of the city government and the city commission, the City of St. Pete Beach probably does not have enough lawsuits, AND IN FACT NOW THERE IS ONE MORE.

Subject: Variance Case # 2012-0007
Date: Wednesday, February 29, 2012 12:50:59 PM

Feb. 29, 2012

Attn: C. Hartley

This email is in regard to variance case # 2012-0007 for 3610 E Maritana Dr request by Ronald Cooper.

We would like to request that variance be denied due to water drainage issues. If you give him permission to come within 10 ft to the south, then when a house is built on lot 5 next to us they will want the same. Water pouring off a 2 or 3 story home will absolutely flood our property. The crawl space entrance to our home is on that side. If water gets into it, it would be very hard to dry out. Please do not set a precedence.

Thanks for your help in this matter.

Joyce & Nick Muschong

City of St. Pete Beach
Board of Adjustment
Public Hearing
Case # 2012-0008
March 28, 2012

Property Information

Address: 107 30th Ave

Applicant/Owner: Lisa and Gerlad Kertesz

Agent: Self

Existing Use:

Zoning: RU-2

Request: Applicants request a variance from Section 9.7 of the Land Development Code to reduce the front yard setback from 20 feet to 12 feet and the side yard setback from 11 feet to 4 feet for the construction of a deck.

Details of Request and Background Information:

The property consists of a single family residence on a lot that faces the Gulf of Mexico. The replat of the tract of land in which this site lies dedicated the beachfront area to the City (formerly the town of Pass-a-Grille). East of the lot is what is commonly referred to as Sunset Way, but on this block is actually only a platted 10 foot wide alley, not a street.

Even though the lot is oriented towards Sunset Way, the frontage is actually considered 30th Avenue.

Lot width is defined as “the average distance between the property lines connecting the front and rear zoning lot lines at each side of the zoning lot, except for zoning lots on the turning circle of a cul-de-sac for which the required yard shall be based upon the stated minimum lot width for the district in which the lot is located.”

Based on this definition, the required side yard setbacks would be 11 feet (versus 5 feet if the house was considered as fronting Sunset Way).

A deck currently exists on the side of the lot that fronts the Gulf of Mexico, roughly 8 feet from the lot line. The applicant wishes to replace the existing decking and extend the deck an additional 4 feet, leaving no side yard on the west side of the property.

Staff Analysis

Section 3.12 of the land Development Code sets forth the conditions that an applicant must meet in order for a variance to be granted:

(a) The existence of conditions and circumstances that are peculiar to the subject land, structure or building and do not apply generally to neighboring lands, structures or buildings in the same district which have complied with these regulations without hardship; that the strict

application of the provisions of the land development regulations would deprive the applicant of reasonable use of such land, structure or building; and the peculiar conditions and circumstances are not the result of the actions of the applicant; and

(b) Neither a nonconforming use of neighboring lands, structures or buildings, legal or illegal, in the same district, nor a permitted use in adjacent districts shall be considered as grounds for issuance of a variance; and

(c) The proposed variance will not have the effect of changing any district boundary on the zoning map, nor constitute the granting of a nonconforming use. Under no circumstances shall a variance permit an increase in development density or permit a use not specifically permitted in the district; and

(d) The granting of a variance will be in harmony with the general purpose and intent of the land development regulations and will not be injurious to the neighborhood or otherwise detrimental to the public welfare. In granting the variance, the appropriate board of authority may prescribe any conditions and safeguards it deems necessary or desirable as a condition of approval of the variance application; and

(e) The appropriate board of authority finds as a reasonable conclusion that hardship would unnecessarily result from a literal enforcement of the provisions of the land development regulations as set forth in the application, and the variance proposed is the minimum variance that will make possible the reasonable use of the land, structure and building.

Based on these standards, staff makes the following observations:

- a) The lot is oriented differently from other lots in the surrounding area; However, the way the house and lot are situated do not appear to deny the applicant of reasonable use of the land.
- b) The applicant has not argued that a non-conforming neighboring property substantiates the request.
- c) The granting of the variance will not result in the change of a boundary on the zoning map.
- d) The applicant has argued that the proposed deck would be a better aesthetic alternative than non-permanent structures, such as awnings or umbrellas.
- e) The burden is on the applicant to provide competent substantial evidence that a hardship exists that would deprive them of reasonable use of the property.

Although the burden lies on the applicant to prove that a hardship exists, staff finds that the request meets the general purpose and intent of the Land Development Code.

VARIANCE APPLICATION

Applicants must acknowledge understanding of the following. Initial each of the statements below. If you do not understand any of these, staff will explain them to you.

- ☒ I understand that a non-conforming use or structure in a particular zoning district does not, in any way, provide justification for the granting of a variance. Furthermore, the existence of a permitted use or structure in adjacent districts does not constitute grounds for a variance.
- ☒ On all variances, a majority vote is required. Action on this application by the BOA/City Commission may be continued to a later meeting.
- ☒ I understand that if a variance is approved by the BOA/City Commission, the applicant is required to obtain the appropriate building permits within 1 year from the date of the decision. If no permit is obtained within 1 year, the approval from the Board/City Commission becomes voided.
- ☒ I understand that any person aggrieved by the final decision has the right to file a petition in the Pinellas County Circuit Court within 30 calendar days after the decision. Permits for construction may be granted prior to the expiration of this 30-day period, but an appeal will be grounds for revocation of the permit.
- ☒ I understand that I, as the applicant, or my authorized representative must be present at all scheduled public meetings on the application.

After acknowledgement of these conditions, complete the application form on the following pages.

Current Zoning: RU-2 FLUM Designation: _____ Lot Area: 5500 sf

Existing Use: 0110-SFR Proposed Use: 0110-SFR

DETAILS OF THE REQUEST: (Add additional sheets if necessary)

Replace existing deck boards on patio, extend existing upper
deck from an 8' depth to 12' providing sunshade below. The
existing width (north-south) of the upper deck will remain the
same. This will provide protection from the sun without using
awnings or other fabrics that quickly weather and look unkempt.

Attach the following supporting documentation to this application:

- Recent survey of the property
- A site plan, drawn to scale, illustrating the proposed variance.

This application, together with all required supporting document, shall be submitted by 12:00 noon on the stated filing date for the Board of Adjustment/City Commission. Failure to do so will delay your application to a later date.

Board Action: ☐ Approved as requested ☐ Approved with conditions ☐ Denied
☐ Continued

In order for an application for a variance to be approved or approved with conditions, the Board of Adjustment or the City Commission must make a positive finding with regard to each of the provisions below, which are also located in Division 3 of the Land Development Code. The applicant has the burden of proof demonstrating that the application for the variance complies with each of the requirements. Please explain in detail how your case meets these requirements (attach additional sheets if necessary):

1. Conditions and circumstances exist that are peculiar to the subject land, structure or building and do not apply generally to neighboring lands, structures or buildings in the same zoning district which have complied with these regulations without hardship.

This parcel lacks large vegetation providing much needed sun protection. There is one large tree located in the beach dunes off the SW corner of the lot. The neighbors to the north have large vegetation beyond their western property line and they have a large overhang on their 2nd story decks, providing sun protection.

2. The strict application of the provisions of the land development regulations would deprive the applicant of reasonable use of such land, structure or building.

The proposed upper deck extension would rest at 2' to the property line. The existing setbacks of 10% (= 11 ft.) for the sides of the lot will not allow the extension of the upper deck. There is a need for sun protection, for longevity of the patio construction and enjoyment of the owners. Umbrellas are easily weathered, quickly deteriorating and fraying. Umbrellas also become a hazard in high winds to people and adjacent structures.

3. The peculiar conditions and circumstances are not the result of the actions of the applicant.

No. This house was purchased with the patio and deck in the current state.

4. The proposed variance will not have the effect of changing any district boundary on the zoning map.

No. All boundaries remain as is.

5. The variance shall not permit a non-conforming use or permit a use not specifically permitted in the zoning district.

The use of patio and deck will remain the same.

6. The variance shall not increase density or intensity over that which is permitted in the Comprehensive Plan.

There will not be an increase of density or intensity.

7. The granting of a variance will be in harmony with the general purpose and intent of the land development regulations and will not be injurious to the neighborhood or otherwise detrimental to the public welfare.

The granting of a variance will be in harmony with the intent of the regulations and would not be injurious to the neighborhood, in fact, it would enhance the view from the beach, and be consistent with the neighbors. The new deck would also exclude the need for additional umbrellas.

8. The variance proposed is the minimum variance that will make possible the reasonable use of the land, structure and building.

Yes. This is the minimum variance that can be made to extend the upper deck for reasonable coverage.

NOTICE OF PUBLIC HEARING
Hearing Date: April 18, 2012
2:00 P.M.
City Commission Chambers
155 Corey Avenue
St. Pete Beach, Florida 33706**

Case No.: 2012-0008
Address: 107 30th Ave
Owner: Lisa and Gerlad Kertesz
Agent: Owner
Request: Applicants request a variance from Section 9.7 of the Land Development Code to reduce the front yard setback from 20 feet to 12 feet and the side yard setback from 11 feet to 4 feet for the construction of a deck.

You are hereby notified that a variance application for the above-referenced request has been filed with the Community Development Department. Records indicate that you own property within 300 feet of this property. The application is on file with the Community Development Department, which is located on the first floor in City Hall, 155 Corey Avenue, St. Pete Beach. Interested persons are urged to examine the application materials prior to the scheduled hearing date. Individuals who wish to object to the request may either appear at the hearing or file their objection in writing with the Community Development prior to the hearing date. If the objection is in writing, it should refer to the assigned case number and specify the grounds for the objection. Written objections will be presented to the Board of Adjustment for consideration. **Community Development Department may be contacted by telephone at 727-363-9266 or by email at c.hartley@stpetebeach.org.** This public hearing is part of a quasi-judicial proceeding and is subject to special rules and procedures relative to evidence and appeals. Discussions with any board member will be disclosed at the public hearing. Appeals of the decision are by petition for writ of certiorari to the Circuit Court. Persons appealing a decision will need a record of the proceedings and may need to ensure that a verbatim record is made, including testimony and evidence upon which the appeal is based. The City does not provide verbatim transcripts.

In accordance with the Americans with Disabilities Act and Florida Statutes 286.26, persons with disabilities needing special accommodation to participate in this proceeding should contact Public Services, no later than seven days prior to the proceeding at (727) 363-9243 for assistance; if hearing impaired, contact the Florida Relay Service Numbers, (800) 955-8771 (TDD).

Case # 2012-0009
March 28, 2012

Property Information

Address: 105 27th Avenue

Applicant/Owner: Bonnie and Gerard Pickhardt

Agent: Self

Existing Use: Single Family Residential

Zoning: RU-2

Request: Applicants request variance from section 9.7 of the Land Development code to reduce side yard setback from 9 feet to 6 feet for the construction of an addition.

Details of Request and Background Information:

The subject property consists of two platted lots of record (45' x 110'). Based on the Land Development Code, one single family residence could be constructed on each lot.

There currently exists a single family residence on the western lot. The applicant requests a variance from the sideyard setback (9 feet down to 6 feet) in order to construct what would essentially function as an ancillary dwelling unit but accessed only from the interior of the lot.

The proposed structure would be attached to the single family residence via a deck and shielded from the street with a solid wall.

It should be noted that if the property owner decided to construct a single family residence on the eastern lot, the sideyard setback would be only 4.5 feet.

Density is not at issue due to the fact that two total dwelling units could be constructed on the two lots.

Staff Analysis

Section 3.12 of the land Development Code sets forth the conditions that an applicant must meet in order for a variance to be granted:

(a) The existence of conditions and circumstances that are peculiar to the subject land, structure or building and do not apply generally to neighboring lands, structures or buildings in the same district which have complied with these regulations without hardship; that the strict application of the provisions of the land development regulations would deprive the applicant of reasonable use of such land, structure or building; and the peculiar conditions and circumstances are not the result of the actions of the applicant; and

- (b) Neither a nonconforming use of neighboring lands, structures or buildings, legal or illegal, in the same district, nor a permitted use in adjacent districts shall be considered as grounds for issuance of a variance; and*
- (c) The proposed variance will not have the effect of changing any district boundary on the zoning map, nor constitute the granting of a nonconforming use. Under no circumstances shall a variance permit an increase in development density or permit a use not specifically permitted in the district; and*
- (d) The granting of a variance will be in harmony with the general purpose and intent of the land development regulations and will not be injurious to the neighborhood or otherwise detrimental to the public welfare. In granting the variance, the appropriate board of authority may prescribe any conditions and safeguards it deems necessary or desirable as a condition of approval of the variance application; and*
- (e) The appropriate board of authority finds as a reasonable conclusion that hardship would unnecessarily result from a literal enforcement of the provisions of the land development regulations as set forth in the application, and the variance proposed is the minimum variance that will make possible the reasonable use of the land, structure and building.*

Based on these standards, staff makes the following observations:

- a) The lot in and of itself does not have anything in particular that makes it different than other lots in Pass-a-Grille. The unique design the applicants have offered are what is unique about the plan. The only reason that a variance is required is because of the way the applicants have proposed the units be attached; otherwise, if considered two separate single family residences not connected by the deck, a variance would not be needed.
- b) The applicant has not argued that a neighboring non-conforming property is the reason a variance is needed.
- c) If granted, the variance would not change any boundary on the zoning map. Overall density is being maintained and is consistent with the comprehensive plan.
- d) The request is in general harmony with the purpose and intent of the Land Development Code.
- e) While a technically a “hardship” does not exist that deprives the applicant reasonable use of the land, literal interpretation of the Land Development Code does in this case deprive the applicant and the City of creative design that will maintain the traditional mass and scale of Pass-a-Grille.

Summary and Conclusion

Staff finds that the request meets the general purpose and intent of the Land Development Code.

Hearing Date: _____

Fees: \$1529.25

Board Action: ☐ Approved as requested ☐ Approved with conditions ☐ Denied
☐ Continued

In order for an application for a variance to be approved or approved with conditions, the Board of Adjustment or the City Commission must make a positive finding with regard to each of the provisions below, which are also located in Division 3 of the Land Development Code. The applicant has the burden of proof demonstrating that the application for the variance complies with each of the requirements. Please explain in detail how your case meets these requirements (attach additional sheets if necessary):

1. Conditions and circumstances exist that are peculiar to the subject land, structure or building and do not apply generally to neighboring lands, structures or buildings in the same zoning district which have complied with these regulations without hardship.

a.) Detached Secondary Structure
b.) Relief from setback requirement

2. The strict application of the provisions of the land development regulations would deprive the applicant of reasonable use of such land, structure or building.

The applicant holds title to both adjoining lots 5 + 8.

3. The peculiar conditions and circumstances are not the result of the actions of the applicant.

While the detached secondary structure is not connected by an enclosed hallway it will be connected via a common deck structure.

4. The proposed variance will not have the effect of changing any district boundary on the zoning map.

Correct

5. The variance shall not permit a non-conforming use or permit a use not specifically permitted in the zoning district.

Correct

6. The variance shall not increase density or intensity over that which is permitted in the Comprehensive Plan.

Shall decrease

7. The granting of a variance will be in harmony with the general purpose and intent of the land development regulations and will not be injurious to the neighborhood or otherwise detrimental to the public welfare.

Correct

8. The variance proposed is the minimum variance that will make possible the reasonable use of the land, structure and building.

Correct

**SUBJECT: 105 27th Avenue, Pass-A-Grille, St. Pete Beach, FL 33706
Parcel ID 18 32 16 61002004 0050**

Dear Board of Adjustment:

We are seeking a variance to address two issues that will permit us the best usage of our property and maintain the harmony of the neighborhood. At the same time, we wish to be true to a variance request that maintains the integrity of the land development code.

We are first seeking permission to construct a detached pool cabana with our existing residence. It is our desire to eliminate a bedroom from our existing residence and construct the detached cabana with one bedroom thereby effectively reducing the total living density of the combined properties. Rather than two lots comprised of two large homes with 3 to 5 bedrooms in each, we will have two lots with just three bedrooms. While the code would prefer the cabana be attached by a common hallway, we are proposing that the cabana will be effectively attached via the elevated concrete pool deck which will be enclosed by ornamental railing. The new cabana/pool deck structure will be covering only 34.3% of the lot; a reduction of over 50% of the allowed impervious surface area of the lot.

In addition, because we have combined the two lots (#5 and #8) we are seeking relief from the land development set back requirements. The existing house on lot 5 is setback on the west elevation at 11' while only being required to be at 4'6". With the combining of the two lots the west setback would be 9'; we are clear by 2'. What we are requesting is to permit the cabana's east elevation to be constructed 6' from the setback rather than

the required 9'. We feel that the encroachment on east elevation along the alley is not detrimental to the alley traffic flow. The cabana design also creates garage parking space under the structure which eliminates passage obstructions from parked vehicles along the alley.

Bonnie and I both want to thank you for your time and consideration in this matter. We look forward to many years of enjoyment in this wonderful community. We remain,

Respectfully,

Gerard J. Pickhardt

VARIANCE APPLICATION

Applicants must acknowledge understanding of the following. Initial each of the statements below. If you do not understand any of these, staff will explain them to you.

MP I understand that a non-conforming use or structure in a particular zoning district does not, in any way, provide justification for the granting of a variance. Furthermore, the existence of a permitted use or structure in adjacent districts does not constitute grounds for a variance.

MP On all variances, a majority vote is required. Action on this application by the BOA/City Commission may be continued to a later meeting.

MP I understand that if a variance is approved by the BOA/City Commission, the applicant is required to obtain the appropriate building permits within 1 year from the date of the decision. If no permit is obtained within 1 year, the approval from the Board/City Commission becomes voided.

MP I understand that any person aggrieved by the final decision has the right to file a petition in the Pinellas County Circuit Court within 30 calendar days after the decision. Permits for construction may be granted prior to the expiration of this 30-day period, but an appeal will be grounds for revocation of the permit.

MP I understand that I, as the applicant, or my authorized representative must be present at all scheduled public meetings on the application.

After acknowledgement of these conditions, complete the application form on the following pages.

On reading our note we're not sure we were clear. We support less than 9 foot setback (4,6 feet) for their plan. Please be sure to indicate that we are positive about giving them what they want for their project, whatever the correct wording might be.

We live on the corner of Pass-a-Grille Way and 27th Ave.
We heartily support the innovative and lower density plan of the
Pickhardt's. Their request for a 9 foot set back is fine with us.

Board of Adjustment
Public Hearing
Case # 2012-0010
March 28, 2012

Property Information

Address: 315 40th Avenue

Applicant/Owner: April and William Tarvin

Agent: Jack Bodziack

Existing Use: Single Family Residential

Zoning: RU-1

Request: Applicant requests variance from Section 9.7 of the Land Development Code to allow for a 5 foot encroachment into the required front yard for stairs.

Details of Request and Background Information:

The applicant purchased the incomplete structure in 2011. The applicant claims that the front stairs were constructed improperly and that to correct the issue a five foot encroachment into the front yard is required to complete the project.

Staff Analysis

Section 3.12 of the land Development Code sets forth the conditions that an applicant must meet in order for a variance to be granted:

- (a) The existence of conditions and circumstances that are peculiar to the subject land, structure or building and do not apply generally to neighboring lands, structures or buildings in the same district which have complied with these regulations without hardship; that the strict application of the provisions of the land development regulations would deprive the applicant of reasonable use of such land, structure or building; and the peculiar conditions and circumstances are not the result of the actions of the applicant; and*
- (b) Neither a nonconforming use of neighboring lands, structures or buildings, legal or illegal, in the same district, nor a permitted use in adjacent districts shall be considered as grounds for issuance of a variance; and*
- (c) The proposed variance will not have the effect of changing any district boundary on the zoning map, nor constitute the granting of a nonconforming use. Under no circumstances shall a variance permit an increase in development density or permit a use not specifically permitted in the district; and*
- (d) The granting of a variance will be in harmony with the general purpose and intent of the land development regulations and will not be injurious to the neighborhood or otherwise detrimental to the public welfare. In granting the variance, the appropriate board of authority may prescribe any conditions and safeguards it deems necessary or desirable as a condition of approval of the variance application; and*

(e) The appropriate board of authority finds as a reasonable conclusion that hardship would unnecessarily result from a literal enforcement of the provisions of the land development regulations as set forth in the application, and the variance proposed is the minimum variance that will make possible the reasonable use of the land, structure and building.

Based on these standards, staff makes the following observations:

- (a) The applicant has argued that the unfinished structure was constructed incorrectly and the current owner was unaware of the construction issue at the time of purchase.
- (b) A single family residence is a permitted use in this zoning district. There is no request for a prohibited use, nor has the applicant argued that a non-conforming use is the reason for the application.
- (c) The proposed variance does not change any zoning district boundary.
- (d) The general purpose and intent of the Land Development Code is to ensure the health and safety of the public. The applicant has stated that the variance is needed to construct a safe landing for the stairs.
- (e) It could be argued that denying the variance would deny reasonable access to the front of the property; however, the burden is on the applicant to prove that there is no other way to design the staircase that could meet the zoning requirements.

Summary and Conclusion

The burden of proof lies on the applicant to prove that there is no other way the stairs can be constructed that would meet the zoning code and still provide safe, reasonable, and building code compliant access to the structure.

VARIANCE APPLICATION

Applicants must acknowledge understanding of the following. Initial each of the statements below. If you do not understand any of these, staff will explain them to you.

WBT I understand that a non-conforming use or structure in a particular zoning district does not, in any way, provide justification for the granting of a variance. Furthermore, the existence of a permitted use or structure in adjacent districts does not constitute grounds for a variance.

WBT On all variances, a majority vote is required. - Action on this application by the BOA/City Commission may be continued to a later meeting.

WBT I understand that if a variance is approved by the BOA/City Commission, the applicant is required to obtain the appropriate building permits within 1 year from the date of the decision. If no permit is obtained within 1 year, the approval from the Board/City Commission becomes voided.

WBT I understand that any person aggrieved by the final decision has the right to file a petition in the Pinellas County Circuit Court within 30 calendar days after the decision. Permits for construction may be granted prior to the expiration of this 30-day period, but an appeal will be grounds for revocation of the permit.

WBT I understand that I, as the applicant, or my authorized representative must be present at all scheduled public meetings on the application.

After acknowledgement of these conditions, complete the application form on the following pages.

William B. Tamm
Signature of Applicant

Date

Attach the following supporting documentation to this application:

- Recent survey of the property
- A site plan, drawn to scale, illustrating the proposed variance.

This application, together with all required supporting documents, shall be submitted by 12:00 noon on the stated filing date for the Board of Adjustment/City Commission.

Failure to do so will delay your application to a later date. If any materials are missing or any part of this application is left blank, staff may refuse the application until such time as it is completed by the applicant.

In order for an application for a variance to be approved or approved with conditions, the Board of Adjustment or the City Commission must make a positive finding with regard to each of the provisions below, which are also located in Division 3 of the Land Development Code. The applicant has the burden of proof demonstrating that the application for the variance complies with each of the requirements. Please explain in detail how your case meets these requirements (attach additional sheets if necessary):

1. Conditions and circumstances exist that are peculiar to the subject land, structure or building and do not apply generally to neighboring lands, structures or buildings in the same zoning district which have complied with these regulations without hardship.

CURRENT OWNERS PURCHASED PARTIALLY COMPLETED AND FORCLOSED PROPERTY WITH PARTIALLY CONSTRUCTED FRONT STAIR AND WERE UNAWARE THAT LOCATION OF BUILDING ON SITE BY PRIOR OWNER AND HER CONTRACTOR NO LONGER ENABLED BUILDING STAIRS TO BE CONSTRUCTED WITHIN SETBACK OR IN A SAFE AND REASONABLE MANNER

2. The strict application of the provisions of the land development regulations would deprive the applicant of reasonable use of such land, structure or building.

STRICT APPLICATION OF CODE WOULD EITHER CAUSE UNSAFE LANDING IN DRIVEWAY OR HIGHLY UNUSUAL AND UNSIGHTLY DOUBLE OR TRIPLE TURNS OF ANY POSSIBLE STAIRWAY SOLUTION.

3. The peculiar conditions and circumstances are not the result of the actions of the applicant.

PRIOR OWNER AND FORMER CONTRACTORS ACTIONS CREATED PHYSICAL LOCATION OF BUILDING THAT NEGATES A REASONABLE AND SAFE SOLUTION.

4. The proposed variance will not have the effect of changing any district boundary on the zoning map.

MAIN BUILDING CONFORMS TO ALL SETBACKS AND ENCRoACHMENT INTO FRONT YARD BY FIVE (5) FEET AS REQUESTED WILL NOT VISUALLY AFFECT ANY ADJACENT OR SURROUNDING RESIDENCES SINCE THE HEIGHT OF STAIR LANDING AT ENCRoACHMENT⁸⁶ WILL BE LESS THAN 6'-0" ABOVE GRADE.

5. The variance shall not permit a non-conforming use or permit a use not specifically permitted in the zoning district.

SIMILAR ENCROACHMENTS INTO FRONT YARD SETBACKS EXIST
AND THIS REQUEST IS ONE THAT IS ALLOWABLE AND WILL
NOT SET ANY PRECEDENT AND IS ALLOWABLE UNDER CODES.

6. The variance shall not increase density or intensity over that which is permitted in the Comprehensive Plan.

VARIANCE REQUESTED WILL NOT INCREASE DENSITY
OR INTENSITY ALLOWABLE BY COMPREHENSIVE PLAN

7. The granting of a variance will be in harmony with the general purpose and intent of the land development regulations and will not be injurious to the neighborhood or otherwise detrimental to the public welfare.

GRANTING WILL BE WITHIN THE GENERAL
PURPOSE AND INTENT OF LAND DEVELOPMENT
REGULATIONS AND WILL NOT BE INJURIOUS TO NEIGHBORHOOD
OR DETRIMENTAL TO PUBLIC WELFARE, I

8. The variance proposed is the minimum variance that will make possible the reasonable use of the land, structure and building.

THIS IS THE MINIMAL VARIANCE NECESSARY
TO MAKE POSSIBLE REASONABLE USE OF THE
LAND, STRUCTURE AND COMPLETION OF THE BUILDING,
SINCE THE MAIN STRUCTURE IS WELL WITHIN REQUIRED
SETBACKS AND MEETS ALL OTHER FEMA AND

CODE REQUIREMENTS

Case No.: 2012-0010
Address: 315 40th Avenue
Owner: William Tarvin
Agent: John Bodziak
Request: Variance from Section 9.7 of the Land Development Code to allow for a 5 foot encroachment into the required from yard for stairs.

You are hereby notified that a variance application for the above-referenced request has been filed with the Community Development Department. Records indicate that you own property within 300 feet of this property. The application is on file with the Community Development Department, which is located on the first floor in City Hall, 155 Corey Avenue, St. Pete Beach. Interested persons are urged to examine the application materials prior to the scheduled hearing date. Individuals who wish to object to the request may either appear at the hearing or file their objection in writing with the Community Development prior to the hearing date. If the objection is in writing, it should refer to the assigned case number and specify the grounds for the objection. Written objections will be presented to the Board of Adjustment for consideration. **Community Development Department may be contacted by telephone at 727-363-9266 or by email at c.hartley@stpetebeach.org.** This public hearing is part of a quasi-judicial proceeding and is subject to special rules and procedures relative to evidence and appeals. Discussions with any board member will be disclosed at the public hearing. Appeals of the decision are by petition for writ of certiorari to the Circuit Court. Persons appealing a decision will need a record of the proceedings and may need to ensure that a verbatim record is made, including testimony and evidence upon which the appeal is based. The City does not provide verbatim transcripts.

In accordance with the Americans with Disabilities Act and Florida Statutes 286.26, persons with disabilities needing special accommodation to participate in this proceeding should contact

Public Services, no later than seven days prior to the proceeding at (727) 363-9243 for assistance; if hearing impaired, contact the Florida Relay Service Numbers, (800) 955-8771 (TDD).
